Adhocrasound is a micro-survey of some - and only some - of Australia's experimental and exploratory sound makers. Curated by Jason Sweeney through a process of submissions, solicitations and soft persuasion, it is a space for you to take time out from the visual, the live and re-focus, immerse yourself in some sonic landscapes for while, maybe with a drink or taco in hand, a friend by your side. Enjoy the (almost) silence. – JS, June 2012
